BATHROOMS RECOMMENDED BY LIFE

What you are holding in your hands is the complete catalogue of bathroom solutions from **CERSANIT**.

It is not only a brochure presenting products, but is also filled with inspiring ideas, surprising solutions and magical arrangements.

CERSANIT is a Polish brand, which has long been

a leader among manufacturers of bathroom equipment.

We know perfectly well that this is where we spend both our hectic mornings and idyllic evenings — this is why it is so important that our ideal bathroom is designed coherently and functionally. Regardless of its size and design — the **CERSANIT** portfolio includes comprehensive solutions

with a long-term guarantee of the highest quality.

CERSANIT products combine minimalism and elegance with comfort and practical solutions, which allows us to create the space we have always dreamed of, being a perfect match for our style and needs.

INVERTO

BY cersanit

INNOVATIVE CONCEPT

The modern **INVERTO** concept complements the **CERSANIT** Group portfolio with products from higher price segments, whose design and technological solutions are at top level.

INVERTO offers products which are an alternative to the world's largest interior design brands.

INVERTO collection combines stylish materials, simple forms and innovative technological solutions to create a bathroom worthy of the 21st century.

INVERTO creates an elegant and at the same time, minimalist, extremely practical and comfortable interior, in line the latest trends.

ROCKLITE

TECHNOLOGY

LIGHTWEIGHT AND DURABLE CERAMIC MASS

The **ROCKLITE** technology is based on the use of reinforced ceramic mass in the production of thin-walled washbasins. This makes them seem extremely delicate visually and yet they are extremely durable.

In addition, the improved glaze covers the surface of the ceramic perfectly, making it extremely smooth and uniformly white. The **ROCKLITE** ceramic washbasins are made of the high quality, lightweight and durable **ROCKLITE** ceramic mass, and are impact and load resistant. They have thin edges, which is why they look exceptionally delicate and modern.

The improved glaze is applied to the thin edges of the washbasins. It perfectly covers the surface of the products making them perfectly smooth and uniformly white.

COUNTERTOP WASHBASINS

INVERTO countertop washbasins are made of high quality, lightweight and durable **ROCKLITE** ceramic mass. The thickness of these washbasins' walls is only 5–6 mm. The simple shape of the washbasins, combined with the glaze, will add sublime elegance to any bathroom interior.

COUNTERTOP AND FURNITURE WASHBASINS

INVERTO countertop and
furniture washbasins can
be combined with both washbasin
cabinets and directly with
countertops.

The additional storage area
on these washbasins will come
in handy in any bathroom.

INVERTO washbasins are made
of high quality, lightweight and
durable **ROCKLITE** ceramic mass.

Installed either on a cabinet
or a countertop of **INVERTO**
washbasins look elegant and
impressive.

streamOn

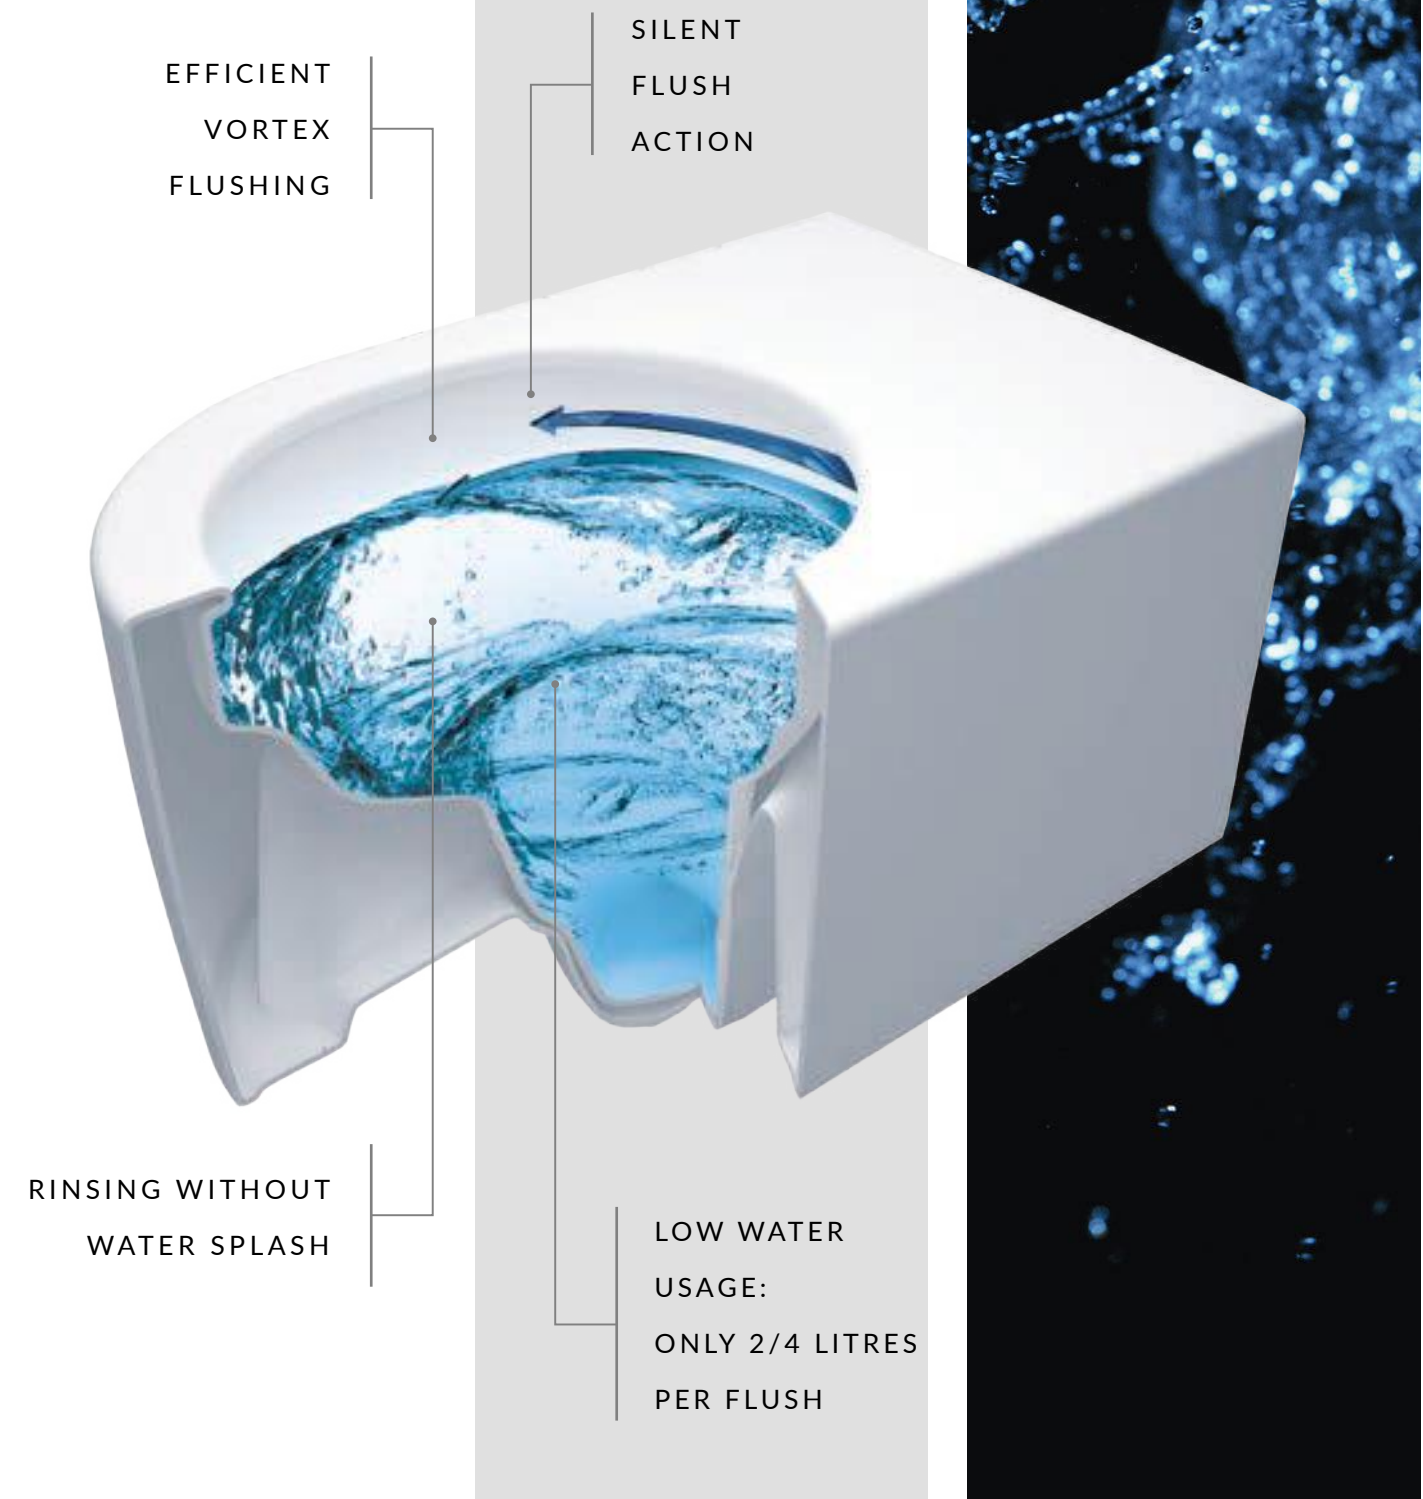

TECHNOLOGY

NATURE-INSPIRED TECHNOLOGY

Designers have always been inspired by nature creating extraordinary designs. The unique shape of the wall hung bowl is the result of nature observation. The inside of the toilet is designed as if it was formed by a water whirlpool.

The **StreamOn** technology used in the wall hung bowl refers to the natural phenomena of the movement of water, air or galaxies which has existed since the dawn of time.

The **StreamOn** system mimics nature by reversing the water flow, turning it into a whirlpool.

INNOVATIVE FLUSHING SYSTEM

The water leaves a single flushing nozzle and washes the bowl interior in several swirls at a single flush: this is how all soil is removed with a perfect efficiency and a splash as low as a whisper. The unique internal form of **INVERTO** wall hung bowl follows the geometry, sculpted by the natural flow of water. In the WC wall hung bowl one flushing hole was used, with its special location. was used, with its special location. The strength of the flow of the water is thus varied, the back of the bowl is washed with a stronger jet than the front, where the flow of the water is much gentler.

FURNITURE

INVERTO furniture combines modernity, simplicity of form and innovative technological solutions at the highest level.

The cabinet fronts are made of beautiful ceramic tiles from **CALACATTA MARBLE** and **LAKE STONE** collections by **OPOCZNO** brand.

The bodies are made of moisture-resistant board, the drawers are equipped with the so-called **SOFT-CLOSE SYSTEM** and the **PUSH SYSTEM**.

A special siphon sold with the cabinet enables full use of the drawer. Thanks to the use of tiles on cabinet fronts and advanced technology, **INVERTO** furniture fits into the latest trends in design: minimalism, but also comfort, practicality, but also elegance.

*Cr*EA

A COLLECTION WITH UNIQUE POSSIBILITIES

CREA is a remarkable bathroom collection that includes thin-walled washbasins, toilets, shower enclosures, bathtubs with a delicate edges designed for tiling as well as elegant furniture with a sophisticated minimalist form.

Trendy design goes hand in hand with advanced technology, which increases the usability and durability of individual products.

The great variety of products allows to create bathrooms for a variety of purposes, moods and in various colours, making it a perfect choice for singles, couples or families with children.

THIN LINES ARE A COMMON ELEMENT OF THE ENTIRE COLLECTION

Gentle shapes of thin-walled washbasins. Extremely thin bathtub edges, designed for tiling. Modern, flat toilet seats. And a unique design of the washbasin cabinets and pillars. Thanks to the consistently applied thin line motif, the comprehensive range of bathroom products from **CREA** collection is stylistically coherent. Everything is in line with the latest trends in interior design.

cleanON

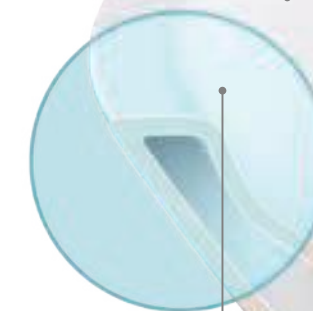

CleanOn is an innovative technology and a new quality in taking care of cleanliness in the bathroom. This is a functional and user-friendly solution where the inner rim has been removed from the wall hung bowls and WC compacts.

The rim and its edge are the areas where, in traditional bowls, the dangerous to health bacteria and germs usually accumulate. The **CleanOn** wall hung bowls do not have any hard to reach surfaces and therefore are free of such contamination. This makes your toilet cleaner than ever!

INNOVATIVE
FLUSHING
SYSTEM

NO RIM

CLEANLINESS
WITHOUT
SCRUBBING

AQUASAFE

Thanks to the **AQUASAFE** technology, **CREA** bathroom furniture will remain in perfect condition for many years to come.

The fiberboard, which is hidden underneath the trendy finish, has an increased density and the structure of its fibers is reinforced by a moisture proofing agent featuring anti-fungal properties. As a result of both these factors, the new fiberboard has significantly lower water absorption and moisture-induced expansion parameters than traditional materials used in the production of bathroom furniture. This makes it more durable and stronger.

When choosing furniture in **AQUASAFE** technology, you not only get a beautiful design, but also functionality and durability.

Wide range of cabinet sizes with large, convenient full extension drawers for easy storage of accessories.

Wide selection of washbasin sizes, furniture, countertop or wall hung, is a great convenience when arranging a bathroom.

A technologically advanced, thin-walled rimless urinal.

Two unique design lines of wall hung bowls and bidets.

Shower enclosures with tall doors made of safety, tempered glass, covered with the **CleanPro** protective coating.

Thin slim toilet seats. Soft-close and one button easy-off systems increase the comfort of use.

Wide range of bathtubs: freestanding, rectangular and asymmetric.

Moduo

UNLIMITED POSSIBILITIES

MODUO is a collection with limitless possibilities.

An extensive range of bathroom furniture makes the collection unique. With the wide portfolio of **MODUO** products any space can be arranged conveniently: from spacious bathrooms to difficult, narrow or tiny toilet rooms. The core distinctive feature of the collection is its modularity, allowing you to create multi-element sets by yourself in order to gain lots of storage space. In addition to a wide range of elegant furniture, the collection includes washbasins for washbasin cabinets and toilets.

We present MODUO, a collection of limitless possibilities.

MODUO
FURNITURE
AND
WASHBASINS

Modularity is the key feature of this collection. Our range includes a number of furniture items: modules to be matched with a countertop, shallow and deep washbasin cabinets, wall hung cabinets and pillars. They come in a variety of sizes so that they fit any space. Modern styling and trendy but universal furniture colours will match all interior designs. There are countless possibilities to choose from...

COUNTERTOP WASHBASINS

These countertop washbasins are a unique addition to **MODUO** product portfolio. The washbasins are made of fire clay, featuring 8 mm thick walls and very stylish finishes that go perfectly with modern bathroom designs. The collection features a selection of washbasin forms, including oval, rectangular, round, and beautifully organic shapes. The advantage of the latter is the freedom of arrangement – in various countertop combinations and 360 degree positioning. These washbasins are a match for **MODUO** and other countertops, including those of wood or stone. The smallest round washbasin fits countertops narrower than the standard **MODUO** 45 cm range.

LOCATED
AND ROTATED
TO ANY ANGLE
360°

THIN MODUO WASHBASIN CABINETS

The **SLIM** version of washbasin cabinets is another important feature of the products in **MODUO** offer. These are cabinets and washbasins with a smaller depth than standard ones. This makes these products ideal for smaller bathrooms. A smaller distance from the wall will save valuable space without compromising its functionality.

FUNCTIONALITY
AND DIVERSITY
AT THE FOREFRONT

PRACTICAL PILLAR

The hinges in the post door have a wide opening range, up to 165 degrees! This way you can easily look into the mirror on the inner surface of the door. This innovative hinge design gives you convenient access to all your accessories and cleaning agents.

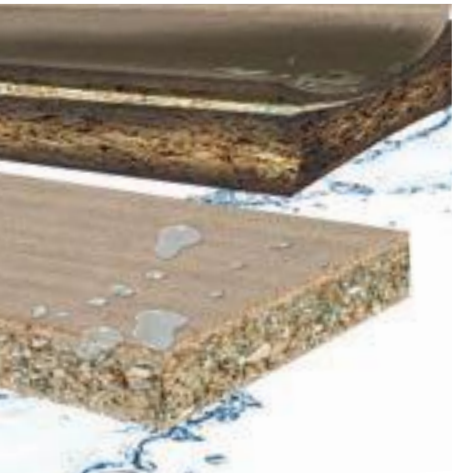

MILLED HANDLES

Special milling of the door profile stops handles being needed to open the door.

CAPACIOUS DRAWERS

Under-counter cabinets and washbasin cabinets have two spacious drawers for easy storage of cosmetic products. They are also equipped with a soft-close system.

AQUASFE TECHNOLOGY

Countertops and open modules available in oak colour, are made using Aquasafe technology. Owing to additional anti-mould impregnation and modified board density, the items are more resistant to moisture.

CREA OVAL

WC compact bowl FBTW **CleanOn** 010/020

cat. no.: K114-023 | index: CCCZ1005956213

CREA FBTW WC compact set stands out with its modern design and rectangular or oval shapes, all covered with the unique white colour, **CERSANIT WHITE**. Thanks to the innovative **CleanOn** technology applied, water reaches every place of the inner space of the bowl and improve washing. No rim in the bowl means no space for dirt, bacteria and germs, and the toilet stays clean for longer. The bowl is designed for efficient, 3/5L flushing. The shape of the bowl has been closed so that the entire compact adheres to the wall. Thanks to this the drain elements are not visible, which gives an amazing sense of aesthetics and modernity. The presented compact is in version with horizontal outflow. It can optionally be vertical by using outlet pipe (not included - available in any sanitary ware shops). The tank should be purchased separately. Set includes: **SLIM** duroplast soft-close, one button easy-off toilet seat.

characteristics:

- the unique **CERSANIT WHITE**
- CleanOn** technology
- Full-Back-to-Wall
- economic flushing 3/5L
- 10-year warranty on ceramics
- 2-year warranty for toilet seat

width×depth×height [cm] 36×63,5×40

To be paired with two types of tanks:
cat. no.: K673-004, K673-005

CERSANIA

WC compact 695 **SimpleOn** 010

cat. no.: K11-2337 | index: CCKZ1014826402

CERSANIA is something more than a compact. **SimpleOn** technology thanks to the reduced rim to minimum makes cleaning the bowl inside much easier than in the case of classic rimed bowls. This solution helps to maintain hygiene in a simple way, because we have less nooks in which limescale and bacteria can accumulate. We used 3/6L flushing system. The presented version is with horizontal outflow, adapted for water supply from the side of the tank.

Price applies to the entire set, i.e. the compact bowl together with the tank, valves and assembly kit and an exclusive duroplast, soft-close, easy-off toilet seat.

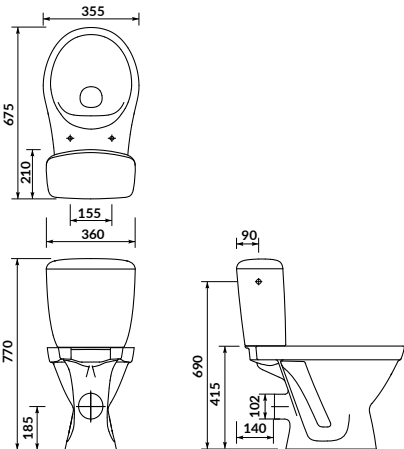

characteristics:

- **SimpleOn** technology
- the unique **CERSANIT WHITE**
- colour consistency with other **CERSANIT** productts
- economic flushing 3/6L
- 10-year warranty on ceramics
- 2-year warranty for toilet seat

width×depth×height [cm] 36×67,5×77

the set includes:

duroplast, soft-close, two buttons
easy-off toilet seat

N

CERSANIA

WC compact 696 **SimpleOn** 010

cat. no.: K11-2338 | index: CCKZ1014836402

CERSANIA is something more than a compact. **SimpleOn** technology thanks to the reduced rim to minimum makes cleaning the bowl inside much easier than in the case of classic rimed bowls. This solution helps to maintain hygiene in a simple way, because we have less nooks in which limescale and bacteria can accumulate. We used 3/6L flushing system. The presented version is with horizontal outflow, adapted for water supply from the side of the tank.

Price applies to the entire set, i.e. the compact bowl together with the tank, valves and assembly kit and an exclusive **SLIM** duroplast, soft-close, easy-off toilet seat.

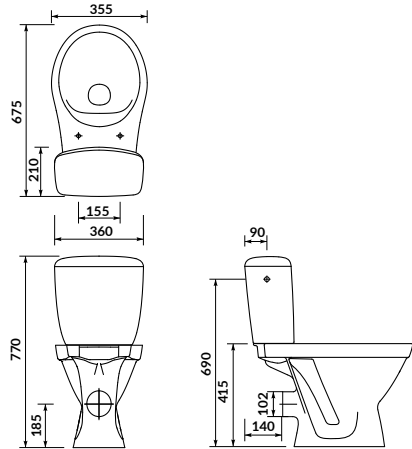

characteristics:

- **SimpleOn** technology
- the unique **CERSANIT WHITE**
- colour consistency with other **CERSANIT** productts
- economic flushing 3/6L
- 10-year warranty on ceramics
- 2-year warranty for toilet seat

width×depth×height [cm] 36×67,5×77

the set includes:

SLIM duroplast, soft-close,
easy-off toilet seat

MILLE SLIM 60

Furniture washbasin

cat. no.: K675-002	index: CCWF1008376349
--------------------	-----------------------

MILLE ceramic furniture washbasins made of high quality materials and glazed also from underside. This makes it possible to install the washbasins not only with a washbasin cabinet (**LARA SLIM**), but also solo with a decorative siphon. Washbasins **MILLE** in the **SLIM** version mean that the size of the top surface of the washbasin is greater than size of the bottom. Such structure allows for more efficient use of the bathroom area (the washbasin furniture takes up less space).

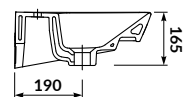

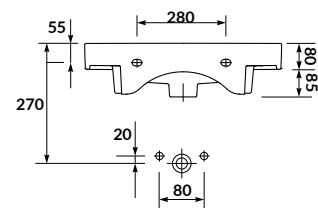

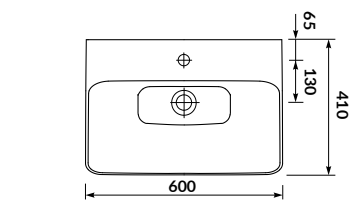

characteristics:

- the unique **CERSANIT WHITE**
- easily washable surface
- high quality of workmanship
- 10-year warranty

width×depth×height [cm] 60 × 41 × 16,5

to be assembled with:

decorative **CERSANIT** siphon

CREA

CREA collection of shower enclosures is a unique collection for the most demanding customers who value quality, unique style and timeless, unusual design. The 200 cm tall door of **CREA** enclosures is made of safe, thick, 8 mm tempered glass with a water repellent **CleanPro** coating, which makes them very easy to clean. The collection consists of two versions of enclosures: with hinges and with sliding doors.

The flush-fitted, foldable hinge with a straightforward lifting function fits

in perfectly with the current trends. The sliding doors with a soft closing function provide comfort in use. Aesthetically pleasing wall profile with concealed installation, long metal handle and a gutter for draining water from the door to the inside of the enclosures complete the features of the enclosures.

This makes the **CREA** collection ideal for fans of innovative solutions and design at the highest level.

CHROME-PLATED
DRIP RAIL

A specially designed drip rail
to catch water
dripping down the open door
and drain it into the enclosure
to avoid the risk of letting it
escape outside.

CHROME-PLATED
SUPPORT

The metal support parallel
to the door surface does not
reduce comfort when using
the shower.

FLUSH-FITTED
HINGE WITH GLASS

Thanks to the special hinge
design, **CREA** enclosure
does not require a vertical
seal between the door and
the wall, and guarantees
a wide entrance
to the enclosure. Elegant and
flush-fitted with the glass
surface, it allows for easy
cleaning of the enclosure.
The door lift function
improves the comfort of use
and also makes it possible
to stop the door when
opening at a 90° angle.
It prevents damage if the door
accidentally hits the side wall
of the enclosure.

CHROME-PLATED
THRESHOLD STRIP

Functional sill strip prevents
water from leaving
the enclosure.

CleanPRC
HYDROPHOBIC
COATING

The hydrophobic **CleanPro**
coating prevents the build-up
of scale and other deposits
and makes it easier to keep
things clean.

SILVER
SEALS

The magnetic seal guarantees
tightness of the enclosure.
It fits the chrome profile,
creating an aesthetically
pleasing whole.

N

SHOWER ENCLOSURES

mille

MILLE enclosures are a series of popular walk-in enclosures which, thanks to their design, allow the designed space to be optically enlarged. It becomes lighter and more modern in style.

The enclosures are available in two sizes and two trendy color options: chrome and matt black. The height, as much as 200 cm, and the thick, 8 mm tempered glass, are undoubtedly the advantages of these enclosures. In addition, the enclosure is protected by the **CleanPro** protective coating, which prevents scale and dirt from settling on the surface of the glass. Less time spent on cleaning, more on enjoying the bath.

**WALL PROFILE:
CHROME OR BLACK**

The modern, black wall profile fits in with contemporary bathroom design trends. The matt finish of the black surface gives the enclosure a designer chic. The chrome-plated wall profile enhances the modernity of the enclosure and its minimalist form. The surface of the profile emphasizes simple, timeless style.

**WALL SUPPORT:
CHROME OR BLACK**

The profile support in the color of your choice perfectly harmonizes with the whole and guarantees the stability of the entire enclosure.

CleanPRC
**HYDROPHOBIC
COATING**

The hydrophobic **CleanPro** coating prevents the build-up of scale and other deposits and it facilitates cleaning.

SHOWER ENCLOSURES

Moduo

MODUO is a collection of shower enclosures with unlimited possibilities. Thanks to the extensive offer, fitting and creating a perfect bathroom is no longer a problem. The enclosures are made of thick, extremely durable tempered glass with the **CleanPro** protective coating to prevent scale and dirt build-up. Cleaning will be much easier and will take much less time.

The column hinge with a door lift function, the metal handle, the magnetic seal, as well as the height of the enclosures, up to 195 cm - these are the main hallmarks of the **MODUO** collection.

COLUMN HINGE
WITH DOOR
LIFT FUNCTION

The column hinge with a door lift function creates a smooth surface with a wall profile. This improves the comfort of use and extends the life of the seals. In addition, all lifting hinges are equipped with a mechanism that stops the door when it is opened at a 90° angle to protect it from accidental impact.

CHROME-PLATED
THRESHOLD STRIP

The gentle, chrome-plated threshold strip prevents water from splashing out of the enclosure.

WALL SUPPORT

A metal wall support mounted to the side wall of the glass guarantees the stability of the whole structure of semi-circular enclosures.

HANDLES

The metal, double-sided handles with a chrome finish combine style with functionality.

WALL
PROFILE

The gentle wall profile without visible mounting screws creates a smooth and easy to clean surface.

CleanPRC

HYDROPHOBIC
COATING

The hydrophobic **CleanPro** coating prevents the build-up of scale and other deposits and makes it easier to keep things clean.

ARTECO SHOWER ENCLOSURES

Simplicity and elegance is what describes **ARTECO** collection best. All enclosures are made of 5 mm transparent, safety tempered glass, protected by the **CleanPro** protective coating that prevents scale and dirt build-up.

Profiled shower enclosures are available in as many as eight versions: semi-circular, rectangular, square and recessed door (as high as 190 cm).

Two types of door opening systems were used in the **ARTECO** collection: rollers and **PIVOT**-type hinges.

Enclosure models with sliding doors have double chrome

rollers at the top and bottom. The metal handle and magnetic seals significantly affect the durability of the enclosures.

The highest quality and interesting design of the enclosures will make every bath a real pleasure.

CleanPRC

HYDROPHOBIC
COATING

The hydrophobic **CleanPro** coating prevents the build-up of scale and other deposits and it facilitates cleaning.

CHROME-PLATED
PIVOT HINGE

The pivot hinge that allows a wide opening angle of the enclosure door, provides comfort and convenience.

HANDLES

Metal, double-sided handle with gentle shapes and an aesthetically-pleasing chrome finish.

DOUBLE ROLLERS

Double, top and bottom rollers make the enclosure door move smoothly and comfortably. The quick release function of the lower rollers makes it easy to clean the sliding enclosure.

BASIC SHOWER ENCLOSURES

Comfort and affordability are the features of **BASIC** shower enclosures collection.

They are available in two sizes, with a possible left and right-hand installation, so they can be easily adapted to any bathroom, even the smallest one.

The enclosures have elegant metal handles, double chrome-plated rollers at the top and bottom, solid wall profiles.

The **BASIC** shower enclosures are an ideal solution for those who appreciate durability and comfort of use for many years.

HANDLES

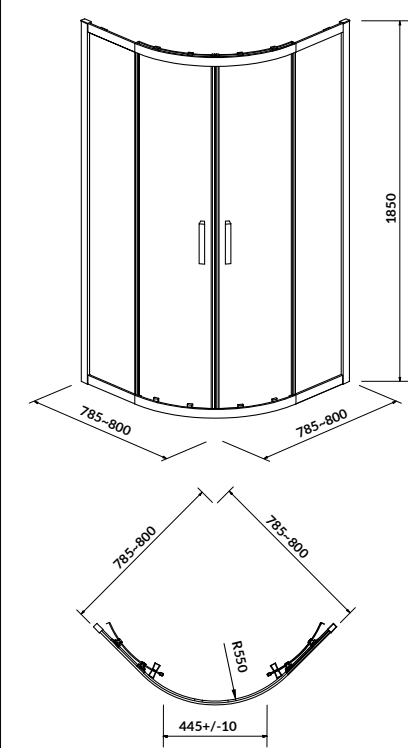

Robust metal door opening system with external handle and two-point mounting inside the enclosure.

DOUBLE ROLLERS

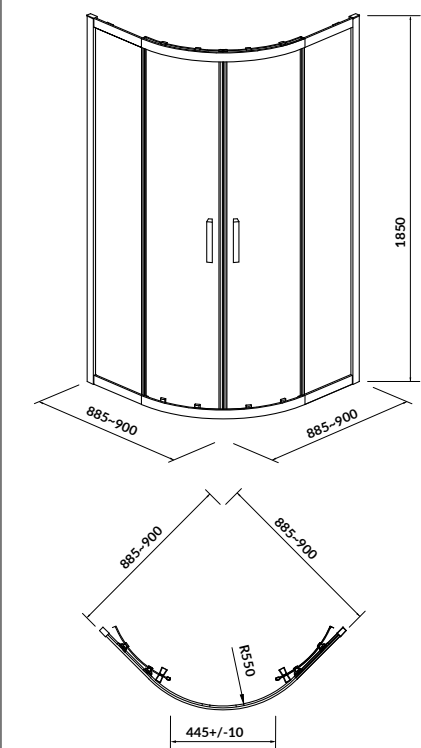

Double, top and bottom rollers make the enclosure door move smoothly and comfortably. The quick release function of the lower rollers makes the sliding enclosure easy to clean.

N

EASY NEW BATH SCREENS

Bathroom screens are an effective solution to protect your bathroom from water spills.

EASY NEW single or double-winged screens create elegant glazing and a practical barrier separating the bath from the rest of the bathroom space.

Safety of use is ensured by tempered glass with a thickness of 5 mm as well as the rounded upper edge of the wing.

The rotatable panels allow a wide opening angle of 180° or 360° (in double-winged screens), which facilitates comfortable opening of the wings both towards the bath and to the outside.

The screens are coated on both sides with the **CleanPro** coating, so the glass is protected from scale and other dirt, and cleaning is extremely easy.

WIDE OPENING ANGLE

A mechanism mounted
in the profile of the screen
will open the wing wide,
in the scope of 180°.

PIVOT WING

The two-winged screens
utilize a wide angle of rotation
of the wing, in the scope
of 360°. Thanks to this,
the wing can be opened both
inside and outside the bath.

ADJUSTMENT AND TIGHTNESS

The adjustable wall profile
will allow the levelling
of wall unevenness
in the range of 15 mm.

High tightness
of the screen is ensured
by an aesthetically pleasing,
transparent seal.

TAKO SHOWER TRAY

Functional shower trays by **CERSANIT** combine safety, high strength and durability with an aesthetically pleasing appearance.

Products from **TAKO** series are available in various shapes: rectangular, square and semi-circular and in various sizes.

The height of shower trays is only 4 to 16 cm.

This allows the shower tray to fit perfectly into the shower enclosure.

The acrylic plates used in the production of shower trays have an added UV stabilizer – this makes the perfect whiteness last for a very long time.

BATHTUBS AND CASINGS

Freestanding, rectangular, symmetrical
and asymmetrical - all **CERSANIT**
bathtub models are made of safe,
durable and damage resistant acrylic.
They have double reinforcement and
can hold loads up to 400 kg.
The addition of UV stabilizer in acrylic
plates used in the production
of bathtubs will make their pristine
whiteness please the eye
for many years.

The set includes adjustable feet,
which allow you to level the bathtub
and get its height to your individual
requirements. Thanks to various
shapes and sizes of **CERSANIT**
bathtubs, arranging every bathroom
will no longer be a problem.

With **CERSANIT** products, creating
a relaxation zone in the bathroom will
be as easy as ever.

STOP UV

A special anti-UV stabilizer is added to the acrylic plates from which **CERSANIT** bathtubs are made. Thanks to its presence, the whiteness of bathtubs lasts for many years.

ACRYLIC

The premium quality acrylic used in the **CERSANIT** bathtubs makes its interior pleasant to the touch, quickly warm up and retain heat for a long time. The acrylic also dampens the noise of the stream of inflowing water.

DOUBLE REINFORCEMENT AND LOAD CAPACITY UP TO 400 KG

The bottom of the bathtub has a special double reinforcement made of resin and fibreglass. This means that the bathtub can withstand loads of up to 400 kg!

ADJUSTABLE FEET

Each bathtub is supplied with adjustable feet, which allow you to adjust the height of the bathtub individually. Thus, it is easy to adjust the height of the bathtub both to individual requirements and to the arrangement of the bathroom.

FREESTANDNIG
BATHTUBS

CREA

Geometric lines and ideal proportions of **CREA** freestanding bathtub are our answer to the needs of those who prefer simple, elegant bathtubs. The freestanding nature of **CREA** bathtub allows for complete freedom in choosing the place for the bathtub in a modern bathroom vision. Its interior offers a comfortable bathing space and a convenient, ergonomic position. Thanks to the centrally located water drain, you get a place to sit on both sides of the interior. The bathtub is made of the highest quality acrylic. This safe material silences the water well. In addition, the surface of the bathtub is pleasant and warm to the touch, and the bath temperature remains comfortable longer. In addition to a solid structure, the freestanding acrylic bathtub is distinguished by its weight, much lower than conglomerate products. The set includes a chrome click-clack siphon and a frame with adjustable legs. Separately, we offer siphons with a click-clack plug in special colours: black matt and gold.

CREA

Back-to-wall **CREA** freestanding bathtub is a perfect solution for those who want to combine the monolithic beauty of a freestanding bathtub with the functional aspect in the arrangement of bathroom space. The freestanding back-to-wall bathtub allows the use of both wall-mounted fittings as well as bath-mounted fitting: there is a possibility of drilling holes in the bathtub edge. The product is also equipped with a convenient space for bathing utensils in the form of a comfortable shelf, adjacent to the wall. The product is made of high-quality acrylic – a material that dampens the sound of hitting water and makes the surface of the bathtub warm and pleasant to touch. The pleasant bath temperature is maintained longer. In addition to its solid structure, the freestanding acrylic bathtub is distinguished by its weight, which is far lower than conglomerate products. The set includes a chrome click-clack siphon and a frame with adjustable legs. Separately, there are siphons with a click-clack plug in black and gold.

ZEN

ZEN bathtubs are the perfect combination of beauty and comfort.

The ergonomic, spacious interior of the bathtub with a contoured back and shoulder support guarantees deep relaxation and rest while bathing.

ZEN series consists of four rectangular bathtubs in standard sizes, with a drain located on the shorter side. The set includes adjustable feet. ZEN bathtubs look great both arranged with ceramic tiles as well as with front and side casings, which are available separately. Thanks to the highest quality acrylic, the interior of the bathtub is pleasant to the touch, it heats up immediately and retains heat for a long time. The acrylic dampens the noise of the inflowing water perfectly. The wide size range of ZEN bathtubs makes it a perfect fit for any arrangement.

NIKE

NIKE series bathtubs are available in four universal sizes so that they can become part of the furnishing of any type of bathroom - both large and small, decorated in any style. **NIKE** bathtubs are distinguished by their modern, geometric design, but their interior is traditionally profiled, with a slightly inclined backrest zone.

The interesting design of the bathtub will be emphasized by the casing, which consists of a side panel and a front panel, with a practical notch running at the bottom. The corner edges of the bathtub provide a practical surface for use, on which many of the necessary bathing accessories can be placed. Thanks to the adjustable feet, the height of the **NIKE** bathtubs can be adjusted during installation.

ASYMMETRIC
BATHTUBS

CREA

The asymmetric bathtubs of **CREA** series are specially profiled, comfortable and deeper than standard models. They have been designed to be built-in with tiles, and for this reason, features an extremely thin edge of only 10 mm thick. Increased bathtub depth and ergonomic profiling guarantee comfort and convenience during bathing.

Minimalism and comfort - these features best summarize the essence of **JOANNA NEW** bathtub series. The specially shaped backrest zone, lowered armrest zone and enlarged interior of the bathtub enhance its practical side, but also its comfort. With its oval shape and spacious inner surface, **JOANNA NEW** asymmetrical bathtub is available in as many as six sizes, in right-handed and left-handed versions. This gives the possibility of arrangement in practically every bathroom. There is a possibility to buy a dedicated casing for **JOANNA NEW** bathtub.

length×width ×depth [cm]

140×75×42

height with legs [cm]

52–60

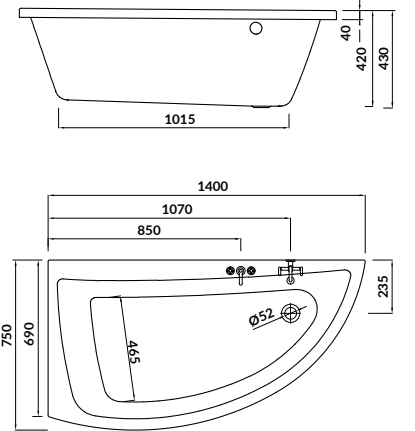

volume to overflow [l]

150

to be paired with:

bathtub casing: S401-061

bathtub siphon: S904-004

Symmetrical bathtubs from **VENUS** collection successfully create a relaxation zone in the bathroom. The pleasure of use is ensured by a comfortable, spacious interior and a seat in the corner part of the bathtub. Expanded edges enable the storage of bathing accessories. Available in two sizes. It is possible to assemble the bathtub casing.

BATHROOM FOR ELDERLY PEOPLE AND THE DISABLED

CERAMIC AND BATHROOM EQUIPMENT

BATHROOM FOR ELDERLY PEOPLE AND THE DISABLED

ETIUDA series has been specially designed for disabled and elderly people with temporary or permanent mobility impairment. It consists of a wall hung bowl with a specially designed toilet seat, WC compact, washbasin and accessories that facilitate safe use of the bathroom without the help of others. The wall hung bowl and WC compact are equipped with **CleanOn** technology and an innovative flushing system, which guarantees complete cleanliness and the highest level of hygiene in the bathroom. The products from **ETIUDA** series are designed to equip hygienic and sanitary rooms in residential and public buildings, including educational facilities and hospitals.

ETIUDA

Wall hung bowl **CleanOn**

cat. no.: K670-002	index: CCHZ1001501986
--------------------	-----------------------

ETIUDA **CleanOn** wall hung bowl is dedicated to bathrooms adapted for people with reduced mobility. Thanks to the innovative **CleanOn** technology, water reaches every part of the inside of the bowl. The absence of an inner rim leaves no room for dirt, bacteria and germs.

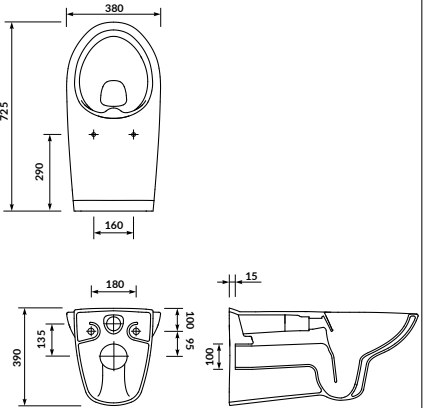

characteristics:

- **CleanOn** technology
- the unique **CERSANIT WHITE**
- the highest hygiene standard
- 3/5L flushing system

width×depth×height [cm]	38×72,5×39

to be paired with:

ETIUDA toilet seat

ETIUDA NEW

WC compact **CleanOn** 010

cat. no.: K11-0221	index: CCKZ1013561894
--------------------	-----------------------

The modern **ETIUDA** WC compact **CleanOn** is adapted to the needs of the elderly and people with reduced mobility. Comfortable seat is mounted higher (48 cm) than in a standard WC compact. A specially profiled **CleanOn** rimless toilet bowl eliminates bacterial build-up points. The compact is equipped with a horizontal outlet and water inlet from the side of the tank.

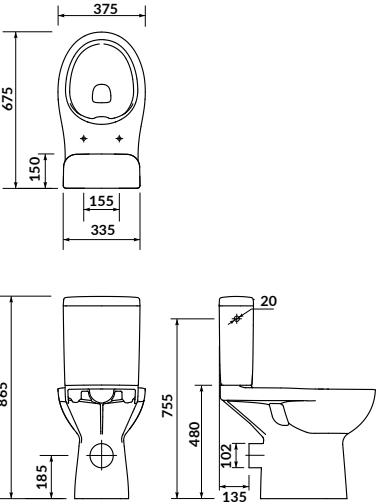

characteristics:

- **CleanOn** technology
- the unique **CERSANIT WHITE**
- the highest hygiene standard
- 3/5L flushing system

width×depth×height [cm]	37,5×67,5×86,5

AQUA FOR HANDLES

Conceleaed frame

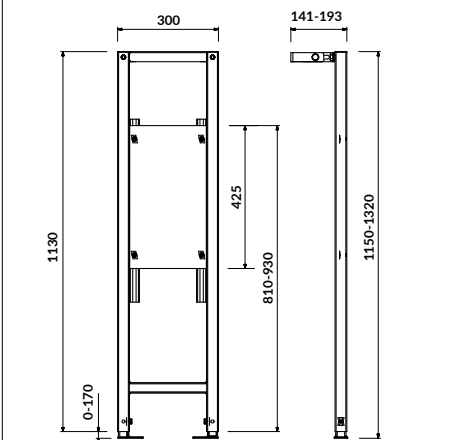

cat. no.: K97-408	index: COAF1001262175
-------------------	-----------------------

Stable hand grip mounting constitutes an indispensable element of bathrooms adapted to elderly and reduced-mobility users’ needs. This is ensured by a wall-mounted frame with height and depth adjustment options. The frame foot can be rotated within the range of 360° (inwards, backwards and to the sides). This model matches **ETIUDA** hand grips. Wall fixing kit included.

- characteristics:
- 10-year warranty on frame
 - maximum load: 100 kg

width×depth×height [cm]	30×14,1-19,3×115-132
-------------------------	----------------------

to be assembled with:
ETIUDA handles

I  WOOD

WIELKIE
POMYSŁY
DLA TWOJEJ
ŁAZIENKI

I WOOD

Nowoczesny europejski design od lat czerpie inspiracje z natury, zwłaszcza z drewna. Ten niezwykle plastyczny, bogaty w kolory, wzory i tekstury materiał znajduje zastosowanie w wystroju wnętrz, artystycznym rękodziele czy zwykłych przedmiotach codziennego użytku.

Dla nas stał się punktem wyjścia do stworzenia wyjątkowej kolekcji płytek „I love WOOD”. Ten unikalny koncept powstał z miłości do drewna i tego jak pięknie i różnorodnie wykorzystywane jest ono w aranżacji wnętrz w różnych regionach Europy – od Skandynawii, przez Niemcy, Francję i Anglię.

Z tej inspirującej artystycznej podróży przez europejskie style powstała kompletna pod względem wzorów i kolorów oferta oryginalnych płytek gresowych w formacie 18,5×59,8 cm i aż 15 odcieniach.

Nature, and especially wood, has for many years been a source of inspiration for modern European design. Wood is exceptionally flexible, with rich colours, patterns and textures that can be utilised in interior design, crafts and ordinary, everyday objects.

For us, wood has been a starting point to develop a unique collection of tiles, which we call “I love WOOD”. This original concept indeed reflects our love for wood in terms of its beauty, variability and richness of conceptual applications in interior design in different regions of Europe – from Scandinavia to Germany, France and England.

This inspiring artistic journey though European styles has created a portfolio of original porcelain tiles that, with as many as 15 hues, helps to form a complete range of colours and patterns.

SKANDYNAWSKI DESIGN

Skandynawski styl to dla nas synonim prostoty i naturalności. Dominacja jasnych, przejrzystych kolorów, pastelowych odcieni, minimalizmu widocznego w dodatkach i detalach. W takich wnętrzach pięknie zagrają jasne, przywołujące na myśl bielone drewno płytki, tworząc przyjazną, pełną światła i optymizmu atmosferę.

SCANDINAVIAN DESIGN

Scandinavian style means simplicity and naturalness. With the dominance of light, transparent colours and pastel hues, its minimalism is reflected in the accessories and details. Such interiors form beautiful surrounding for the light tiles in our portfolio, reminiscent of whitened wood. This combination creates friendly and optimistic atmosphere.

FINWOOD WHITE

Z fascynacji bogatą i złożoną naturą drewna powstał produkt nie tylko piękny, ale funkcjonalny, praktyczny i o bardzo dobrych parametrach użytkowych.

Wood is fascinating in its rich and complex nature and so inspired us to create products which are not only beautiful but also characterised by functionality and excellent quality parameters.

SCANDINAVIAN DESIGN

SKANDYNAWSKI DESIGN
SCANDINAVIAN DESIGN

CHESTERWOOD CREAM

Pracując nad konceptem I love WOOD nasi projektanci sięgnęli po oryginalne drewno aby jak najlepiej oddać jego naturalne wzory i faktury na płytkach.

While working on the I love WOOD concept, our designers analysed actual wood samples, in order to reflect the natural patterns and textures as closely as possible.

A woman in a tan coat and hat, carrying a large tan suitcase, stands with her back to the camera, looking towards the Eiffel Tower in Paris. The scene is set in a bright, hazy environment, likely at sunrise or sunset, with the tower's silhouette clearly visible against the sky. Other people are visible in the background, some sitting on the ground and others standing.

Francuski Szyk

French Chic

Ciepłe, bliskie naturalnym odcieniom drewna płytki to naszym zdaniem kwintesencja stylu, który odzwierciedla francuski szyk - zarówno ten paryski, salonowy, charakterystyczny dla klasycznych wnętrz w starych kamienicach, jak i ten bardziej swojski, sielski, nazywany też prowansalskim.

These tiles in warmer colours, suggestive of natural wood, are the very essence of a style that reflects French chic - both in its Parisian, haute version, characteristic of classical interior design found in old tenement houses, and the idyllic, familiar version often known as Provençal style.

Francuski Szyk / French Chic

SANDWOOD BROWN

Pojedyncze płytki mają swoją niepowtarzalną grafikę, co sprawia, że ułożone obok siebie na podłodze lub ścianie dają naturalny efekt drewnianych desek lub parkietu.

Each individual tile has a unique texture, so that when laid side by side on a floor or wall they create a natural effect resembling wood panelling or parquet.

Francuski Szyk / French Chic

CHESTERWOOD BEIGE

Płytki gresowe są trwałe i odporne na intensywne użytkowanie. Dlatego doskonale sprawdzą się w przestrzeniach o większym natężeniu ruchu jak hall czy przedpokój.

The porcelain tiles are resistant to long-term hard use, making them an excellent choice for popular spaces, such as halls and corridors.

ANGIELSKA ELEGANCJA

W angielskim stylu zachwyciły nas ciemne, ciepłe i nasycone kolory, elegancja, dostojność, dbałość o szczegóły i detale. W takim duchu tworzyliśmy też nasze płytki w odcieniach brown i wenge – naturalne wzory i faktury drewna oddaliśmy na nich z największą pieczołowitością i uwagą. Z klasą i elegancją, godną najlepszych angielskich salonów.

ENGLISH ELEGANCE

English style fascinates us with its dark, warm, saturated colours, its elegance and dignity combined with evident care for every detail. This is also the spirit for our tiles, in a range of brown and wenge hues – our every effort to reflect natural patterns and textures visible on each tile. They are classy and elegant, like the best English parlours.

ROYALWOOD BROWN

Inspirowane drewnem płytki z oferty Cersanit I love WOOD, jak żadne inne z dostępnych na rynku, oddają klimat i styl naturalnych materiałów.

The wood-inspired Cersanit tiles, unlike other products available on the market, reflect the atmosphere and style of natural materials.

ROYALWOOD WENGE

Dzięki temu, że płytki gresowe łatwo utrzymać w czystości, będą one doskonałym rozwiązaniem dla pomieszczeń typu kuchnia czy łazienka, gdzie można je bez problemu połączyć także z ogrzewaniem podłogowym.

As the porcelain tiles are easy to clean and maintain, they are a smart solution for kitchens and bathrooms, where they can also be combined with underfloor heating.

NIEMIECKI PORZĄDEK

SUROWOŚĆ FORMY, POWŚCIĄGLIWOŚĆ KOLORYSTYCZNA – TAKIE TENDENCJE ZAOBSERWOWALIŚMY W TRENDACH I STYLU CHARAKTERYSTYCZNYM DLA NIEMIECKICH WNETRZ. NASZYM ZDANIEM TO WŁAŚNIE W NICH NAJLEPIEJ SPRAWDZĄ SIĘ NAJCIEMNIEJSZE Z PRZYGOTOWANYCH PRZEZ NAS PŁYTEK: W CHŁODNYCH I ELEGANCKICH ODCIENIACH WENGE I BROWN. UPORZĄDKOWANA PRZESTRZEŃ WŁAŚNIE ZYSKAŁA NOWĄ JAKOŚĆ I STYLOWY CHARAKTER.

GERMAN ORDER

RAW FORM, LOW-KEY COLOURS – THESE ARE THE TENDENCIES WE HAVE IDENTIFIED IN THE CHARACTERISTIC STYLES AND TRENDS OF GERMAN INTERIOR DESIGN. WE BELIEVE THIS STYLE IS THE BEST MATCH FOR THE DARKEST TILES IN OUR PORTFOLIO: IN COOL AND ELEGANT HUES OF WENGE AND BROWN. THIS IS A NEW QUALITY AND STYLISH CHARACTER FOR WELL-PLANNED, ORDERLY INTERIORS.

FINWOOD WENGE

Kolekcja I love WOOD to wyjątkowe połączenie tego co piękne i wyjątkowe w drewnie z trwałością i odpornością płytek gresowych.

I love WOOD collection is the perfect combination of everything that is beautiful and original about wood with the durability and resistance of porcelain tiles.

NIEMIECKI PORZĄDEK
GERMAN ORDER

FINWOOD BROWN

Płytki gresowe, w przeciwieństwie do paneli czy drewnianych desek wykazują bardzo wysoką odporność na wilgoć i zmienne warunki pogodowe, dlatego mogą być z powodzeniem stosowane nawet w takich miejscach jak balkon lub taras.

Unlike wooden panels or boards, gres tiles are highly resistant to humidity and changing weather conditions, so they can even be used on balconies or terraces.
